

Swastik Gavhane

AI / Machine Learning Engineer (Fresher)

gavhaneswastik511@gmail.com — +91-8698532856 — [LinkedIn](#) — [GitHub](#)

Location: Pune

Professional Summary

AI and Machine Learning Fresher with foundational knowledge in machine learning, data preprocessing, and model evaluation. Familiar with basic Generative AI concepts including prompt design and usage of pre-trained language models. Skilled in building simple ML solutions and understanding AI-driven workflows.

Technical Skills

Programming: Python, SQL

Machine Learning: Regression, Classification, Model Evaluation

Libraries: Scikit-learn, Pandas, NumPy

Deep Learning: Basics of CNN

Generative AI: Basic Prompt Engineering, Pre-trained LLM Usage (API-based)

Data Handling: Data Cleaning, Feature Engineering, EDA

Deployment: Flask, REST APIs

Tools: Git, Jupyter Notebook, VS Code

Professional Experience

AI & Machine Learning Engineer Trainee

Mar 2024 – Jul 2024

PMKVY (NASSCOM–NCVET, NSQF Level 5 Certification Program)

- Built machine learning models for classification and regression using Scikit-learn.
- Performed data preprocessing and feature engineering for improved model performance.
- Evaluated models using accuracy, precision, recall, and RMSE metrics.
- Developed Flask-based APIs for deploying ML models.
- Explored basic prompt-based interactions with pre-trained language models.

Data Science Intern

Jun 2024 – Sep 2024

Indian Institute of Technology (Academic Internship)

- Collected and preprocessed datasets using Pandas and NumPy.
- Performed exploratory data analysis to understand data patterns.
- Applied basic machine learning techniques for predictive analysis.

AI & Machine Learning Projects

Plant Disease Prediction

- Developed a CNN-based model for plant disease classification.
- Achieved high accuracy through image preprocessing and model tuning.
- Integrated the model into a Flask-based application for prediction.

Real Estate Price Prediction

- Built regression models including Linear Regression and Random Forest.
- Performed feature engineering and model evaluation.
- Developed a simple interface for real-time predictions.

Education

B.Tech in Computer Science (Data Science)

2021 – 2025

D. Y. Patil College of Engineering & Technology, Kolhapur

CGPA: 8.5/10

Certifications

AI–Machine Learning Engineer – NASSCOM / NCVET (NSQF Level 5, 480 Hours)

Python for Data Science – IIT Madras (NPTEL)

Big Data Computing – IIT Kanpur (NPTEL)

Data Analytics with Python – IIT Roorkee (NPTEL)

Languages

English (Professional) — Hindi (Fluent) — Marathi (Native) — Japanese (Beginner)
